## EXAMINER'S AMENDMENT

- An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
- The application has been amended as follows: In the first page of the specification, on the third line, after 2001, please insert, "now U.S. Patent No. 6,754,399".

## REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed towards a method and apparatus of processing image data in an image processing system including memory means for storing image data and processing instructions, processing means for performing said image processing, said instructions defining operations to be performed by said processing means in order to process said image data. Each independent claim identifies the uniquely distinct feature "for color sampling pixels in a user-defined region in a reference image while updating matching transformation in response to a color difference between said user-identified regions and updating an output image by processing image data with said updated matching transformation".

The closest prior art, Zhu (US 6,625,216 B1) discloses wherein a block matching system matches a motion block in one video image frame to a matching block another video image frame. The system includes a plurality of Hadamard transform processors which transform the motion block and a plurality of trial matching blocks from the other video image frame. The transformed

matching blocks are then compared to the transformed motion block, and the transformed matching block which has the smallest difference relative to the transformed motion block is determined, while Arai (US 5,559,604) discloses color matching apparatus for reproducing the same color under different illuminants, and Liang (US 5,579,031) discloses color matching method and apparatus, either singularly or in combination, fail to anticipate or render the above underlined limitation obvious.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
